

CppUnit::TextTestProgress  
Listener

```
classDiagram
    class CppUnitTextTestProgressListener["CppUnit::TextTestProgress Listener"]
    class MyCustomProgressTestListener
    MyCustomProgressTestListener --|> CppUnitTextTestProgressListener
```

The diagram shows a class hierarchy. The base class, 'CppUnit::TextTestProgress Listener', is represented by a white box with a thin grey border and is divided into three horizontal sections. The top section contains the class name, while the middle and bottom sections are empty. The derived class, 'MyCustomProgressTestListener', is represented by a grey box with a thick black border and is also divided into three horizontal sections. The top section contains the class name, the middle section is empty, and the bottom section contains the method signature '+ startTest()'. A blue arrow with an open triangular head points from the top of the derived class box to the bottom of the base class box, indicating inheritance.

MyCustomProgressTestListener

+ startTest()
